

Seminar Dimensioning of exhaust gas systems / chimneys according to
European Standards

May 2016 in Zagreb

CERTIFICATE CONCERNING THEORETICAL AND
PRACTICAL TRAINING

Mr. / Ms.

Marko Jakobović
ENING inženjering, uslužni obrt,
vl. Želimir Jakobović i Marko Jakobović

has regularly participated in the theoretical and practical training for
dimensioning of gas systems / chimneys according to
the EN 13384 Part I and Part II from

May, 5th to May, 6th 2016

under the responsible leadership and supervision of
Mr. Thomas Brüning-Deckers

During the seminar the basics of dimensioning chimneys serving one
appliance and chimneys serving more than one appliance and the
development and application of the European Standard EN 13384 combined
with the software kesa-*aladin* were worked out. The use of the software kesa-
aladin was practiced by selected practical examples.
